Address: 158 Johnston Street, Sunnyside, Pretoria

PROFESSIONAL PROFILE

Motivated and dedicated Diploma in Computer Science student at Tshwane University of Technology seeking a Work-Integrated Learning opportunity to gain practical industry experience and apply academic knowledge in a professional environment.

I have completed the theoretical component of my qualification, with a strong foundation in Java programming, mobile application development, database development and administration, business analysis, and modelling. I am eager to develop my technical and professional skills while contributing positively to an organisation and learning from experienced IT professionals.

EDUCATION

Tshwane University of Technology

Extended Diploma in Computer Science
2023 – Present

Major Areas of Study:

- Software Development — Java Programming
- Mobile Application Development
- Business Analysis and Modelling
- Database Development and Administration

TECHNICAL SKILLS

Programming & Software Development

- Java programming
- Object-oriented programming fundamentals
- Console-based application development
- Software development fundamentals

Mobile Development

- Android application development
- Android Studio

Database Development & Administration

- SQL
- MySQL
- Oracle
- Microsoft SQL Server
- Database design and development
- Database administration fundamentals

Business Analysis & Modelling

- UML
- Business process modelling
- Requirements analysis
- Systems analysis and modelling

Web Development

- HTML
- CSS
- JavaScript

Version Control

- Git
- GitHub

ACADEMIC PROJECTS

Java Number Guessing Application

Technology: Java, Git, GitHub

Developed a simple console-based number guessing application as part of my programming experience.

Key activities:

- Applied Java programming concepts to develop a functional application.
- Implemented user input and program logic.
- Used conditional statements and programming logic to control application behaviour.
- Tested the application to identify and correct errors.
- Used Git and GitHub for version control and project management.

CORE COMPETENCIES

- Problem solving
- Logical thinking
- Programming fundamentals
- Database fundamentals
- Analytical thinking
- Attention to detail
- Willingness to learn
- Teamwork and collaboration
- Communication
- Adaptability
- Time management

CAREER OBJECTIVE

To obtain a Work-Integrated Learning placement where I can gain practical experience in software development, mobile development, database development and administration, business analysis, or related IT fields. I aim to apply my academic knowledge in a real-world environment, strengthen my technical abilities, and gain professional experience that will prepare me for a career in the technology industry.
